How It Works

Why Thunderrise?

✓ Cost Efficiency

Engaging a contract with Thunderrise reduces the development expenses by 40% without losing in quality.

✓ Talented Engineers

Each our team member is an expert in his field.

✓ Transparency/Flexibility

Pricing, reporting, communications and everything related to development process are crystal clear to our clients.

✓ Direct Communication

We keep close communications with our clients and are always ready for a conversation.

✓ Highest Quality of Performance

We chose the best specialists to join our team.

✓ Use of Latest Technologies

When the new technology or methodology is established our specialists do their best to study and implement it to the process.

Cooperation Models

Time & Materials

Project is being developed on hourly basis and the payments are made in accordance with the actual hours spent. This model is more flexible than fixed budget and suits for open-ended and long-term projects when it is impossible to define the whole scope of work or there are multiple functionality expansion.

Fixed Price

Project is being developed within the fixed budget. This model is effective when all requirements and specifications are clear and delivery timeline for each milestone or the whole scope of work is agreed.

Thank You For Your Attention
